SUMMARY

Hello, my name is Ghani Rizky Naufal, and I'm a Computer Science major at college. I am now enrolled in Bina Nusantara University in Jakarta Barat, Indonesia. I adore coding and developing new things, and I'm interested as a Back-End Developer, but I'm open to other options as well. I'm skilled at working with people and am a laid-back individual that is enjoyable to work with.

EDUCATION

Bina Nusantara University   *Jakarta Barat, Jakarta*
Master Track of Computer Science   *2018 - Present*
- Cumulative GPA: 3.66/4.0 (Until Semester 6)

WORK EXPERIENCE

PT. Pro Sistimatika Automasi (PROSIA)   *Jakarta Barat, Jakarta*
Programmer Internship   *February 2021 – August 2021*
- Node.js Back-End Developer
- Confirming project requirements by reviewing program objective, data input & output requirements with the analyst, supervisor, and client
- Encoding project requirements by converting workflow information into computer language.
- Confirming program operation by conducting tests, and modifying program sequences and/or codes
- Making REST API Back-End for Indonesia trading application called "INATRADE" using Node.js with Express.js framework
